U.S. Senate
Washington, DC 20515

The Honorable George Miller
U.S. House of Representatives
Washington, DC 20515

The Honorable Al Green
U.S. House of Representatives
Washington, DC 20515

Dear Senator Feinstein, Senator Portman, Senator Begich, Representative Stivers, Representative Miller, and Representative Green,

We are writing on behalf of national, state, and local organizations to thank you for your leadership in introducing the Homeless Children and Youth Act of 2014 (HR 5186/S. 2653). As organizations committed to securing a bright future for children and youth, we applaud efforts to amend the U.S. Department of Housing and Urban Development (HUD)’s definition of homelessness to include children and youth who are verified as homeless by other federal program personnel, and to restore decision-making to local communities.

According to the U.S. Department of Education, there were over 1.1 million homeless children and youth enrolled in public school in the 2011-2012 school year. Yet many of these children and youth are not able to access HUD services such as transitional housing and other wraparound services because HUD’s current definition of homelessness excludes children, youth, and families who are living in motels or temporarily with others because they have nowhere else to go.

These situations are chaotic, unstable, overcrowded, and often dangerous, resulting in negative emotional and health outcomes for children and youth, as well as putting them at risk of physical and sexual abuse and trafficking. Yet HUD’s regulations impose requirements for multiple moves and long periods of homelessness, as well as extensive documentation and recordkeeping requirements before children, youth, and their families are eligible for HUD homeless assistance.

This legislation would amend HUD’s definition of homelessness to include children and youth who are verified as homeless by federal program personnel from federal programs such as: school district liaisons designated under the education subtitle of the McKinney-Vento Act, Head Start programs, Runaway and Homeless Youth programs, Early Intervention programs, Violence Against Women programs, and Health Care for the Homeless programs. It would create a streamlined and efficient referral process for homeless children and youth to access HUD homeless services, and provide communities with the flexibility to serve and house this vulnerable population. Public housing agencies and directors of HUD homeless assistance programs also would have the flexibility to certify families and unaccompanied youth who live in motels or temporarily with others.

In addition, the Homeless Children and Youth Act would allow – but not require - local service providers to prioritize funding for homeless families and unaccompanied youth based on the needs in their community. This legislation returns control over these decisions to local communities, who know their needs best. Finally, this legislation amends federal homeless data collection and reporting requirements to include all homeless children, youth, and families, providing an accurate and honest accounting of homelessness in America.

The failure of federal policy to allow some homeless children and youth to access homeless assistance has serious and far-reaching effects, including exclusion of these populations from critical services, continued invisibility in
community planning on homelessness, and weak or non-existent coordination with key systems of care for children and youth.

We are grateful for your leadership in making homeless children and youth a legislative priority, and we look forward to working with you on this and other proposals to improve the well-being of America’s children and youth.

Sincerely,

National
