March 25, 2015

The Honorable Roy Blunt  
Chairman  
Subcommittee on Labor, HHS, Education & Related Agencies  
Committee on Appropriations  
132 Dirksen Senate Office Building  
Washington, D.C. 20510

The Honorable Patty Murray  
Ranking Member  
Subcommittee on Labor, HHS, Education & Related Agencies  
Committee on Appropriations  
156 Dirksen Senate Office Building  
Washington, D.C. 20510

Dear Chairman Blunt and Ranking Member Murray,

As the national and state organizations advocating on behalf of the 95,000 principals, assistant principals, school leaders, and school administrators across the country, we respectfully request that you address a critical funding concern related to the use of federal funds for ongoing support for our nation’s instructional leaders.

Research has shown that effective school leadership is second only to direct classroom instruction as a key contributing factor to raising student achievement. However, a 2013 report from the U.S. Department of Education on “The Use of Funds Under Title II,” or Title II of the Elementary and Secondary Education Act (ESEA), shows that only 4 percent of federal dollars are spent on principal professional development. This is extremely troubling, as Title II acts as the primary federal program to improve educator performance, and principals play a unique role in ensuring that our nation’s students are college and career ready. As the roles and responsibilities of school leaders continue to expand, Title II must be reoriented to provide the nation’s principals with the necessary opportunities for professional learning and growth as they work to improve teaching and learning in all schools. We believe Congress intended to support principals in ESEA, but states and districts have dramatically underfunded and not adequately supported the role of principals as they work to improve instruction and increase student achievement.

While we believe the report language included in H.R. 83, the FY2015 Omnibus (Consolidated and Further Continuing Appropriations Act), was a step in the right direction to address the issues with underinvestment in principals as ESEA intended. We believe that Congress must allocate no less than 10 percent of Title II, Part A funds, specifically Sec. 2123 (a) of ESEA, to increase support for the professional learning and development of the nation’s elementary, middle level, and high school principals in the FY2016 Senate Labor, Health and Human Services, Education, and Related Agencies appropriations bill.

As our organizations work with the authorizing committees of jurisdiction to more thoroughly address the needs of principals in the renewal of ESEA, appropriate support for the role of principals is needed immediately. Congress must provide direction in the appropriation of the Title II funds to ensure that states and districts respond effectively to meet the immediate needs of principals leading the nation’s schools. Principals are not only operational leaders responsible...
for establishing a safe, supportive, and personalized school environment; they are also instructional leaders, providing ongoing coaching and mentoring to teachers and students. Furthermore, there are a multitude of demands now placed on principals as a result of increased federal, state, and local regulations concerning a variety of new reform initiatives, such as the implementation of college and career ready standards, new teacher evaluation systems, school improvement models, and new federal accountability requirements.

We ask that you support the 10 percent allocation of Title II funds now so that all principals and school leaders are provided with high-quality professional learning and development activities to improve instructional leadership practice. Thank you for your consideration of this request, which will impact the lives of over 33 million students in our nation’s public schools.

Sincerely,

JoAnn D. Bartoletti  
Executive Director, NASSP

Gail Connelly  
Executive Director, NAESP

Diann Woodard  
President, AFSA
