EVERY STUDENT SUCCCEEDS ACT (ESSA)

Title II—Preparing, Training, and Recruiting High-Quality Teachers, Principals, or Other School Leaders

WHY TITLE II MATTERS. The purpose of Title II is to:

- Increase student achievement consistent with the challenging state academic standards
- Improve the quality and effectiveness of teachers, principals, and other school leaders
- Increase the number of teachers, principals, and other school leaders who are effective in improving student academic achievement in schools
- Provide low-income and minority students greater access to effective teachers, principals, and other school leaders

Title II requires districts to “meaningfully consult” with teachers, principals, paraprofessionals, charter school leaders, parents, etc., when developing an application for the use of Title II funds for state approval.

THERE ARE FOUR MAJOR CHANGES TO TITLE II:

1. Changes the formula funding to weigh poverty over population
2. Removes the requirement for a teacher evaluation system
3. Eliminates the requirement for teachers to be highly qualified
4. Allows states to blend Title II, Part A funds with other ESSA funds (e.g., Title III, Title IV)

For principals, Title II funding can bring needed resources to recruit, train, and retain teachers as well as provide ongoing professional learning opportunities in Title I schools. To help principals understand new requirements and opportunities provided by Title II, this fact sheet provides basic information about the funding and its major provisions. It also highlights opportunities for you to engage with your district and state to ensure that the use of Title II funds reflect the priorities you deem critical to providing a quality education in your school.

FUNDING. TITLE II, PART A—SUPPORTING EFFECTIVE INSTRUCTION

ESSA provides a gradual phase in the form of a new formula, weighing population less and poverty more from FY 2017 through 2023. The new formula means some states will see an increase in Title II funding each year while others will see a decrease.

- 35/65 in FY 2017
- 30/70 in FY 2018
- 25/75 in FY 2019
- 20/80 in FY 2020 and succeeding years

FUNDING. AUTHORIZATION OF APPROPRIATIONS

- PART A: Supporting Effective Instruction FY 2017–FY 2020 $2.295B
- PART B: National Activities FY 2017–FY 2018 $468M
- PART B: National Activities FY 2019 $469M
- PART B: National Activities FY 2020 $489M

States can reserve no more than 5 percent of Title II, Part A funds for state activities (with a limit of 1 percent for administration) and must provide 95 percent of Part A funds to districts.
MAJOR PROVISIONS.
Supporting Effective Instruction: National Activities Supporting Effective Instruction

STATES MUST:

Submit an application to the U.S. Department of Education and describe:
- The system of certification and licensing of teachers, principals, or other school leaders
- How activities are aligned with challenging state standards and will improve student achievement
- How data will be used
- How it will encourage increased autonomy and flexibility of teachers/principals
- Action(s) it will take to improve teacher preparation programs
- How it will ensure monitoring of the implementation of activities and provide technical assistance to districts

In addition:
- IF the state plans to use funds to improve equitable access to effective teachers, then they must provide a description of the plan.
- IF the state plans to use funds to work with the district to develop and implement an evaluation system, then they must provide a description of that plan.

DISTRICTS MUST:

Submit a plan to the state and describe:
- The activities to be carried out and how they are aligned with challenging state standards
- The system of professional growth and improvement (e.g., teacher induction; building the capacity of teachers, principals/other school leaders, etc.)
- How the district will prioritize funds to schools implementing Comprehensive Support and Improvement and Targeted Support and Improvement activities
- How the district will use data and ongoing consultation to update and improve activities
- How the district will ensure the coordination of professional development activities provided through other federal, state, and local programs

NEW!
States may reserve up to 3 percent of the amount for district subgrants for state-level principal and school leader support. Some states (e.g., Washington) have already committed to using the 3 percent specifically for activities to support principals.

NEW!
Authorization levels provide a recommended funding level for operating a program and provide guidance to the Appropriations Committees as to an appropriate level of funding. However, it is only the Appropriations Committees that have the authority to decide specific discretionary spending levels for programs on an annual basis. Often programs are funded at levels much lower than authorized.

NEW!
Due to NASSP, NAESP, and AFSA’s advocacy efforts, ESSA includes a definition of “school leader” to mean a principal, assistant principal, or other individual who is “an employee or officer of an elementary school or secondary school, local educational agency, or other entity operating an elementary or secondary school who is responsible for the daily instructional leadership and managerial operations in the elementary school or secondary school building.”

NATIONAL ACTIVITIES
- Teacher and School Leader Incentive Program
- Literacy Education for All, Results for the Nation
- American History and Civics Education
- Programs of National Significance
  - Supporting Effective Educator Development
  - School Leader Recruitment and Support
  - Technical Assistance
  - STEM Master Teacher Corps

NEW!
The School Leader Recruitment and Support program allows the secretary of education to offer competitive grants to states to improve the recruitment, preparation, placement, support, and retention of effective principals or other school leaders in high-need schools.
